Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on February 23, 2004 has been entered.

Election/Restrictions

Applicant's election without traverse of Group I, comprising claims 1-5, in Paper No. 3 is acknowledged.

Claims 6-8 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse in Paper No. 3.

Drawings

The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the "reinforcement member" having "a cutout portion provided in a rear face thereof so as to bond the fastener tape" (claim 2) in the environment of claim 1 that requires the concave mounting groove capable of receiving an attachment object as shown only in the embodiment of figures 2 and 3 must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

Art Unit: 3677

A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claim 3 is rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The indication that the "reinforcement member has a cutout portion provided in a rear face thereof so as to bond the fastener tape" (claim 2) in the environment of claim 1 that requires the concave mounting groove capable of receiving an attachment object as shown only in the embodiment of figures 2 and 3 lacks antecedent basis in the specification as filed. Claim 1 is no longer generic and requires the concave mounting groove capable of receiving an attachment object. Figure 5 shows the cutout portion in a rear face so as to bond the fastener tape, but lacks the concave mounting groove to receive the attachment object 16. The indication that the embodiment of figures 2 and 3 has the cutout portion is without antecedent basis in the specification as filed.

Allowable Subject Matter

Claims 1 and 4 are allowed.
